Dr. Vinay Patel

As president of MakoRx, Dr. Patel has developed an innovative prescription benefit program integrated with Hero Health that is revolutionizing how NC businesses and family's access to high quality care at local cost-plus pharmacy. MakoRx was created out of the frustrations with the existing complex pharmacy system that makes medication pricing very confusing and expensive!

MakoRx provides a level of patient service you have never experience before in healthcare. We simplify how you get your medicines at the pharmacy, ensure you have access to affordable options, and answer all your pharmacy related questions with Med-U-Cation.

You can use your MakoRx pharmacy card at any retail pharmacy in the country and when you choose to go to a local pharmacy you get access to 300+ generic medicines at \$0 and lower costs for all other generics in addition to Brand and Specialty medicines. Call MakoRx or Nurse Faith to find a local pharmacy near you. Below is a list of some (all are not listed) of the most common generic medicines:

Generic

These are the most common medicines available in the US. MakoRx offers 300+ generics medicines at \$0 at local pharmacies.

Brand

These medicines are more expensive than generics and are the ones you see on TV ads. MakoRx will educate you on other lower cost options and identify savings programs to lower your cost at the pharmacy.

Specialty

These are the most expensive drugs in the country, prices usually start at \$1,500 per medicine. MakoRx helps you apply for assistance programs to get you medicine at \$0 and up to 75% savings for your company – this program helps everyone in the company by saving on healthcare costs.
